TONOPAH STREETS IN GOOD SHAPE

The principal streets of Tonopah are in better condition today than they have been for many years. The present board of county commissioners who act as a town board have had two big trucks hauling a heavy drag over the surface of the residential streets. All protruding rocks are removed by the drag and then hauled away to fill in some chuck hole or gully. The town board has done a splendid job and it is hoped the streets will be kept in as good order as at present. A little work done each month will make Tonopah compare with some of the best of them. The present board is entitled to much credit in making these needed improvements. Now that we have the streets in good shape let's keep them so.

MISSIONARY IS DEVOTING LIFE TO AID LEPERS

(By Associated Press)
LONDON, May 12.—A story of heroic self-sacrifice and devotion has reached England from the leper village of Chandag, India, where Mary Reed, a solitary white woman missionary, is giving her life to minister to the sufferings of her fellow lepers.

News of her isolated life was brought back by Mr. Oldrieve, organizing secretary of the Mission of Lepers, who has just returned from a 70,000-mile journey visiting all the leper colonies in India.

Thirty years ago Miss Reed went into this desolate spot in the Mimalayas, 6000 feet above sea level, offering herself to the leper cause. Although a victim of the malady, she is still able to carry on her spiritual work among these afflicted like herself.

Miss Reed seldom sees white people, for her station is 80 miles from the nearest railway line. There are 16 women lepers in the community and 19 men in the men's refuge a short distance away.

According to Mr. Oldrieve, there are 200,000 lepers in India. "At present," he declared, "it is not right to say that any cure for leprosy has been found."
